Nic/Chris

Attached is the potential conflict of interest notification from Weston for the Fort Hood JP-8 Fuel Spill emergency response. This COI was sent in February but was overlooked. Please review the notification and provide a statement as to whether or not this is a conflict of interest. A quick response will be greatly appreciated.

Thanks!

Subject: Potential Conflict of Interest Notification - Fort Hood JP-8 Fuel Spill

Cora – I am submitting the attached COI notification on behalf of Robert who is out of the office today. This is a follow up formal notification to his email dated 02/02/2014.

Please see the attached potential conflict of interest notification in regard to the Fort Hood JP-8 Fuel Spill ER. We demobilized from the site on Sunday and at this time, we understand OSC Brescia does not intend to task START-3 to conduct additional site visits. We will continue to perform work as assigned unless we hear differently from you.

Let me know if you need any additional information.
